

REACH EC DECLARATION OF CONFORMITY

1st April 2024

On 1 June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation and Restriction of Chemicals (REACH) entered into force. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture and import substances on their own, in preparations, or in articles. As of 29 April 2021, the European Chemicals Agency (ECHA) had identified 211 "candidate" Substances of Very High Concern (SVHC). The list of current candidate SVHC can be found:

<https://echa.europa.eu/candidate-list-table>

Article 33 of REACH requires supply chain participants to communicate the presence of SVHC over 0.1% by weight in their products. SVHC are identified on the Candidate list by ECHA.

We declare to the best of our knowledge, that all components in our standard catalogue products and packaging material do not contain any SVHCs as of 29 April 2021. Candidate list with the exception of the products listed in the attached table.

We will continue to review the current and future additions to the SVHC list and will immediately inform our customers if and when a SVHC above the 0.1% threshold level is discovered in the components that make up our products and packaging material.

For all chemical substances and mixtures of substances please refer to the manufacturer Safety Data Sheet (SDS) according to Regulation (EC) No 1907/2006, Annex II, as amended. Commission Regulation (EU) No 2015/830.
